An untapped market: J.P. Turner Institute for Advisor Success.

Founded in 2009 to help advisors leverage new knowledge and skills, our unique training program for advisors teaches in-depth product knowledge, marketing strategies and provides coaching and mentoring during their first year which takes the burden of training off of the branch managers. We also created a national internship program which gives our branches the ability to hire interns so they can determine if those individuals would be a good fit for a permanent hire to help grow their business or to simply provide themselves with the ability to enjoy more free time while someone they trust is taking care of their business.
